Sudipta Bhattacharjee

.NET Full Stack Developer (Angular, React)

Profile

Full Stack Developer with 3 years of experience specializing in high-performance .NET architectures and modern frontend frameworks. Proven track record in optimizing database performance and implementing secure, scalable API solutions.

Work Experience

Full Stack Developer (Solution Infotech),

Kolkata 85 Metcalfe Street

Jan 2024 – Feb 2026

- **Architected scalable Web APIs** using ASP.NET Core and Repository patterns, optimizing SQL Server stored procedures.
- **Developed dynamic Angular and React frontends** with secure JWT authentication and role-based access, ensuring enterprise-grade security and a seamless UI.

Full Stack Developer (EmastersIndia)

Kolkata Bhawanipur

Feb 2023 – Dec 2023

- **Engineered end-to-end features** by integrating **Angular and React.js** frontends with RESTful APIs, improving application load speeds through efficient state management.
- **Modernized legacy modules** by refactoring jQuery into reusable React components, significantly enhancing codebase maintainability and mobile responsiveness.

Education

Bachelor

Prabhu Jagatbandhu College (West Bengal, Howrah)
